

Prohibited Signs- The following prohibitions on signs shall apply in all Zoning districts:

- A. Any moving object used to attract attention to a commercial use is prohibited. However, certain flags and banners may be allowed as provided in Section 703.
- B. Flashing, blinking, twinkling, animated scrolling or moving signs of any type are prohibited. Signs may change their message from time to time provided that each message is visible for at least 10 seconds, except: a) if the sign includes a sign area of more than 100 square feet, the sign message shall not change more that once per 30 seconds, and b) time and temperature signs may change more frequently.
 - 1. In addition, flashing lights visible from a street shall not be used to attract attention to a business. This restriction specifically includes window signs, but does not prohibit Christmas lighting or displays, within Section 703.
- C. Signs which emit smoke, visible vapors or particles, sound or odor are prohibited.
- D. Signs which contain information that states that a lot may be used for the purpose not permitted under this Ordinance are prohibited.
- E. Signs that are of such form, shape or color that they resemble an official traffic sign, signal or device or that have any characteristic which are likely to confuse or distract the operator of a motor vehicle on a public street (such as prominent use of the words "Danger") are prohibited.
- F. Signs or displays visible from a lot line that include words or images that are obscene or pornographic are prohibited.
- G. Balloons of greater than 50 cubic feet that are tethered to the ground or a structure for periods of over a day and that are primarily intended for advertising purposes are prohibited.
- H. Floodlights and outdoor lasers for advertising purposes are prohibited.
- I. To avoid distractions to motorist, neon lighting of more than 10 square feet per lot shall be prohibited as part of signs and if attached to the outside of a building.
